

# Creative Kids SA

Educational Workshops

## Digital Technologies Workshops

### Program Information

Separate programs for each band (Reception to Year 7) which address content descriptors in the Digital Technologies Australian Curriculum

Students choose from making their own video games, stories or art/music/animation projects

Personalised, fun (yet challenging!) learning experiences with cross-curricular connections

Minimal equipment required using only freely available software

### Who Are We?

At Creative Kids SA, we believe that every child in primary school should have the opportunity to learn about some of the most powerful ideas in computer science.
